HOIST INSPECTION, LOAD TESTING & REPAIR WORK SERVICES

While the major part of our hoist business is inspection of existing hoists and cranes, we also sell a wide variety of hoist, crane, and lifting components. We offer both on-site and in-house repairs of hoists and cranes. In an effort to help our customers keep their maintenance costs low, increase their productivity and maintain optimum safety and productivity levels we offer the following services:

In – Plant Inspection and Load Tests by our experienced Hoist Inspectors who are certified hoist technicians. Our inspections can include detailed records, neatly organized for your record keeping with Classifications and Load Test Results. We organize a hoist database for you and remind you when your hoists are due for re-inspection.

In-Plant or In-House Repairs of Hoists, Cranes, and Load Lifting & Securing Devices. Our ability and willingness to repair components whenever feasible, instead of providing new components, is a great value to many companies in today’s economical atmosphere. (In-House means at our facility, In-Plant means at yours! Usually TBD’s “*to be determined*” are In-House)

Sales of Replacement Products, Parts and Equipment for most Manufacturers and production environments we offer a wide array of products that will meet or exceed your criteria request for products. Motors, Generators and Pumps are lines of product we have in addition to our hoist/crane and lifting devices

No Obligation Quotes for Replacement or Up-Grade Equipment

NO CHARGE Consultation during periodic inspections giving you cost saving ideas, performance enhancing suggestions and recommendations for safety procedures

24 HOUR ---EMERGENCY SERVICES when you need them and **PREVENTATIVE MAINTENANCE PROGRAMS** that help to eliminate **DANGEROUS** and costly breakdowns.

You may even be eligible for a BIGELOW ELECTRICAL account to assist you in Managing your Account Payables

We will work as a team with your safety officer to insure the utmost in safe operations and assist you in making the vitally necessary preparations for that unexpected visit from a regulatory inspector

Let us know what your needs are and we will customize a hoist maintenance and compliance program that fits your company perfectly.
